PROJECTS

- **Clojurecademy:** Clojurecademy is like *Codecademy* that focuses only Clojure and its ecosystem, it teaches Clojure programming language or anything related to programming in general(e.g. Algorithms & Data Structures to Code Koans/Katas in Clojure) interactively. (Link: https://clojurecademy.com, GitHub: https://goo.gl/3bG9Jq)

- **Clojure News:** Hacker News clone for Clojurists, entirely written in Clojure & ClojureScript. (GitHub: https://goo.gl/x67rje)

- **GlueList:** New list implementation which is fast and low memory consumer compared to ArrayList and LinkedList. (GitHub: https://goo.gl/htHvAW)

- **Comment Remover:** Source code comment removing library for Java.
  It also supports JavaScript, HTML, CSS, Properties, JSP and XML Comments with a set of extensive features. (GitHub: https://goo.gl/ZhQHjg)
